

### **Uncompromising Attention to Quality & Workmanship**

ROYAL GARDEN cushions are filled with high quality foam, wrapped in a layer of bonded fabric. ROYAL GARDEN cushions should never be machine washed or dry cleaned. Washing by hand in a laundry basin or bath tub is the only method by which they should be cleaned. Use a mild soap or dish detergent and never tumble dry.

### **Maintenace & Care**

ROYAL GARDEN cushions are beautiful to look at, stylish and comfortable, but they are not as durable as the furniture they cover. ROYAL GARDEN cushions cannot be left outdoor year round. They will last a very long time and continue to serve for many years if their master takes care of them.

### **Store Your Cushions Indoor When Not In Use**

Avoid unnecessary exposure to the elements and sun. Keep ROYAL GARDEN cushions indoors when not in use and store in a temperate and dry, mould free environment.
